

Application No. 09/939,412  
Amendment dated July 20, 2004  
Reply to Final Office Action of May 4, 2004

**REMARKS**

Claims 1-7, 13-29, 41, and 42 are pending in the application. Claims 17-29 are withdrawn from consideration. Claims 1-5 and 13-16 are allowed. Claims 6, 7, and 30-42 stand rejected.

**Claim Rejections - 35 U.S.C. §102**

The Examiner rejected Claims 6 and 41 under 35 U.S.C. §102(b) as being anticipated by U.S. Patent No. 3,824,995 (hereinafter "Getscher et al. '995"). In rejecting Claims 6 and 41, the Examiner indicated that Getscher et al. '995 disclosed a bone plate including plate portion 18/20 and blade portion 24 extending from one another at an angle and connected to one another at a bend. Applicants have amended Claims 6 and 41 and respectfully submit that Claims 6 and 41, as amended, are patentable over the cited art.

Claims 6 and 41, as amended, call for a bone plate comprising, *inter alia*, a plate portion and a substantially straight blade portion extending from one another at an angle and connected to one another at a bend, the blade having a radius defined intermediate the plate portion and the blade portion, the radius dimension such that, with the plate portion resting against an outer surface of a bone and the blade portion extending into the bone, the radius fits closely adjacent the outside surface of the bone. Because bend portion 24 disclosed in Getscher et al. '995, which the Examiner identified as the claimed blade portion, is not substantially straight as called for in Claims 6 and 41, as amended, Applicants respectfully submit that Getscher et al. '995 does not disclose every element of Claims 6 and 41. Therefore, Applicants respectfully request withdrawal of the 35 U.S.C. §102(b) rejection of Claims 6 and 41.

The Examiner rejected Claims 30-40 under 35 U.S.C. §102(b) as being anticipated by U.S. Patent No. 5,429,641 (hereinafter "Gotfried '641"). Applicants have cancelled Claims 30-40, without prejudice, rendering moot this rejection.

**Allowable Subject Matter**

Applicants appreciate the Examiner's indication that Claims 1-5 and 13-16 are allowed.
